|--------|--------------|
| Music  | Workout      |
| Study  | Meditate     |
| Read   | Cooking      |
| Travel | Learn / Code |

## Education

### ISCTE - Instituto Universitário de Lisboa

Master's degree, Engenharia Informática · Sep 2024 - Now

**Focus Areas:** Machine Learning, Artificial Intelligence, Advanced Programming, Software Engineering. Currently pursuing a Master's in Computer Engineering at ISCTE-Lisbon, with a specialization in Machine Learning and Artificial Intelligence. This advanced program provides comprehensive and practical training in cutting-edge technologies.

### ISLA - Instituto Politécnico de Gestão e Tecnologia

Bachelor degree, Engenharia de Sistemas e Multimédia · Sep 2016 - Jun 2019

Converging Software Engineering and Systems with Multimedia Design & Marketing, this course enabled me to evolve into a proficient engineer. Focused on practical applications, adaptability, and versatility, I honed my skills to develop integrated multimedia systems for diverse platforms. Equipped with this knowledge, I am poised to address the dynamic challenges of the engineering landscape.

### Cisco Networking Academy (ISLA - Instituto Politécnico de Gestão e Tecnologia)

CCNA Routing and Switching: Introduction to Networks I & II

CCNA Routing and Switching certification not only provides the knowledge of foundational technologies, but ensure to stay relevant with the skill sets needed for the adoption of next generation.

## Experience

### Microsoft

Full-Time · Nov 2019 - Present

#### Support Escalation Engineer - Skype & Microsoft Teams

Aug 2021 - Present

- Expert Troubleshooting:** Lead investigations and resolve critical, complex issues using advanced tools, ensuring seamless functionality for enterprise customers.
- Product Collaboration:** Partner directly with Microsoft Product Engineering Teams to resolve bugs, review source code, and approve escalations, driving continuous improvement in product quality.
- Leadership & Mentorship:** Mentor new engineers through the SEE Academy, provide Level 2 support to Strategic Partners, and guide SEs and SEEs globally, enhancing team capabilities.
- Quality Assurance:** Play a key role in Microsoft's internal testing, delivering vital feedback on CoPilot versions to ensure high-quality, reliable software releases.

#### Support Engineer - Skype, Microsoft Teams & Teams Developer

Nov 2019 - Aug 2021

- Customer-Centric Support:** Specialized in resolving complex Microsoft Teams issues for EMEA Premiere Line customers, ensuring optimal user experiences.
- Development & Debugging:** Worked closely with Product Development Engineering Teams to debug and deploy custom apps and bots, addressing code-based bugs in C#, ASP.NET, and C++.
- Impactful Contributions:** Led side projects, provided mentorship, and delivered technical presentations, significantly enhancing support processes and knowledge sharing within the team.

### Sonae

Full-Time · Aug 2017 - Nov 2019

#### IT Project Management Technician - Software DevelopmentApplication

**Development:** Developed applications using C# and ASP.NET (backend) and JavaScript/TypeScript with Angular, jQuery, and React (frontend).

- Database Management:** Leveraged Entity Framework for services connected to SQL Server databases.
- RPA & Reporting:** Automated processes with UiPath, integrated with SSIS for business report generation.
- Quality Assurance:** Conducted bug fixing and UI tests to ensure reliability.
- System Monitoring:** Collaborated with teams to optimize performance in Windows Server and Azure hybrid environments.
- Technical Support:** Provided ongoing support and maintenance for deployed applications.
